Reflections

From the desk of Patron

Respected CNRS executives and members:

We have successfully completed another productive year of 2023 and embarked on our mission enhancement journey in 2024. You are going to read in details about the activities & events held in last year. I am here to give you my big event of the year and decade that I got opportunity to meet our respected CNRS national president and joint secretary in person and had the most productive short professional quality time with some social hour as bonus.

The update from 2018's my visit to Mount Abu during its establishment process to now having successfully Zones of the society with capable stalwarts as zonal presidents with their talented executive teams was the highlight of our meeting. The events of research related seminars and webinars conducted by the zonal team are worth appreciation.

My heartiest congratulations to our iron lady prof. dr. Bimla Kapoor ji for her appointment as a senior national advisor. Her Chairperson of Peer review position will be filled in due time with equally capable stalwart.

We need to remind ourselves of the society oath taken that we will continue to promote our mission and goals by following our bylaws set clauses.

Last but not least I am thrilled to see the camaraderie among the national & zonal executives who are committed to enhance our CNRS mission and keep on meeting set objectives with the scheduling of each event at national or zonal level.

Kudos to all talented executives for being most productive throughout the year. Only the sky is the limit. Keep marching with same zest into 2024.

My best Wishes & God's blessings in abundance to our CNRS family.

Sincerely,

Prof. Emeritus Dr. S.Narula-Khanna

Prof (Dr.) Bimla Kapoor
National Advisor, CNRS

Dear Executive and Members of CNRS

To begin with let me congratulate a very hard-working team of CNRS at the HQ, all the executives and members. I am sure, Secretary will be highlighting the activities and events of 2023, but thought of sharing some points which are bringing CNRS in the larger health care system such as signing MOU with CAHO with detailed by-laws and being part of the Research activities to improve the patient outcome with funding. Starting of new Zonal branches with active contributions in research activities, workshops and conferences.

I take this opportunity to extend our invitation to all the nursing professionals from the clinical setting, academics, research, nursing administration to get enrolled with CNRS and encourage your colleagues. It definitely provides a platform to discuss about nursing research and evidence-based practice , you can also conduct research even as a part of health care team.

Thanks to all, I am sure 2024 will bring lots of inputs from the members with guidance from executive members.

Best Wishes

Prof (Dr.) Bimla Kapoor

Mrs. Shashi Bala
National President, CNRS

Greetings of Divine Love, Peace and Happiness !!

I consider myself privileged to take on the mantle of President of the CNRS and walk with its illustrious Founder Advisor, Mrs. Uma Handa.

High quality nursing research and support to innovate and use evidence in practice enables, we, nurses to develop new knowledge and nursing practice which ultimately transform patient care....one of the main objective of CNRS..

I am pleased to mention that in past years many accomplishments have been there. Year by year we are putting in efforts to meet CNRS objectives step by step. Three zones...West, South and North were established which has significantly enhanced the visibility as well as members of the CNRS across the country. All the zones have shown remarkable growth and wonderful activities under the leaderships of their respective Zonal Presidents Dr. Rekha Gupta, West Zone, Dr, Latha Venkatesan, North Zone, and Dr. Sreevani, South zone.

We collaborated with CAHO (Consortium of Accredited Health care Organization), a renowned Non-profit organization thinking navigating the vast realm of medical advancements necessitates unity, collaborations and sharing insights among professionals.

I would like to take this opportunity to express my sincere gratitude to our Editor-in-Chief, Dr. Sukhpal Kaur along with her team of scholars on the editorial board for their collective effort and dedication to bring out our first International Journal of CNRS which is just in the last step of its process and very soon we will be having its first copy in our hands. Our main focus will continue to be publishing high quality research articles that help health professionals navigate today's complex care environment.

Cont...

The year gone by has been shocking for our society, our dear Revered Mrs. Uma Handa, Founder Advisor is not keeping good health because of which not able to attend our meetings & all. Let's all pray for her good health. She had been our guiding, inspiring and motivating force, a dynamic and efficient professional. Her presence is missed at every step. Dr. Prof. Bimla Kapoor is appointed the CNRS Advisor in her place by our Patron, Dr. Suwersh Khanna.

Let us embark on this journey together, with a shared vision and unwavering dedication. The first and the foremost of our strengths include our eminent members with proven track records. We are determined to maximize the opportunity for research and innovations to positively impact in the future. Our legacy is strong, and our potential is boundless. Thank you for your trust and support. I look forward to working closely with each one of you and making a meaningful impact on the future of our Society.

Much have been achieved; still it's a long way to go. Lined up for the future are...student section, research activities, research funding and many more.

Once again I would like to extend my best wishes to you all and I believe your support will assist with our continued success. Your assistance or suggestions will be greatly appreciated.

My special thanks to Dr. Suwersh Khanna, our Patron & Founder Seed Giver for her everlasting efforts & support directly or indirectly.

Thank you all very much for your belief in us.

Sincerely,

Mrs. Shashi Bala

President, CNRS

About Us...

A few distinguished proactive nursing leaders earnestly felt the need to propel the seed of Evidence Based Practice in nursing-the best approach to attain excellence in high quality nursing care. Retd. Professor Emeritus Dr. Suwersh Khanna, the Seed Founder and honorary Patron with Mrs. Uma Handa (Founder, Nursing Research Society of India, NRSI), planned to establish a society to create a platform for Nurses to be excellent in nursing research , which in by turn named as Clinical Nursing Research society ie CNRS. The Clinical Nursing Research Society (CNRS), a non-profit organization was founded and registered with the sincere efforts of Mrs. Shashi Bala (Principal, SLM, Global Nursing College, Abu Road, Rajasthan) and few founder members in the year 2019.

Clinical Nursing Research Society (CNRS) registered under Rajasthan Societies Registration Act 1958 at No:-COOP/2019/SIROHI/100141, on 18th April 2019.

Purpose: To encourage and improve the quality of Clinical Research in Nursing to generate evidence and its application in clinical practice and education at par with Global Nursing standards

Vision: To create a global platform of Nurse Researcher for excellence in Nursing Research and capacity building for its execution and sustenance

MISSION

To promote evidence-based nursing research in clinical practice.

To develop the policies and standardized clinical guidelines to provide the evidence based quality care.

To achieve national and international interdisciplinary collaboration, dissemination and utilization of outcomes of clinical research studies to improve the quality of nursing care.

To enhance visibility and active involvement of nurses in policy making decisions at National and International levels.

OBJECTIVES

To provide opportunities to nurses with technical support to comprehend research methodology and its clinical applications for facilitating health care outcomes.

To promote clinical specialization for empowerment of nurses to improve quality of patient centric care.

To explore funding resources for individual and group research in clinical practice.

To follow ethical guidelines as per regulatory body.

To collaborate with other National and International professional bodies to promote Evidence Based Nursing.

To have regional chapters of society.

- The purpose/objectives of this webinar envisage the creation, transmission, and dissemination of knowledge as a part of the continuum. CNRS leadership felt need to create awareness about NEP amongst teachers, students, officials, and other stakeholders in higher education/ professional education systems especially nursing and other healthcare professions.
- Our responsible academic nursing leaders proactively felt the need to understand NEP for better execution and inspire the nursing fraternity to join hands making NEP a grand success.
- The webinar holds the vision of engaging academic fraternity in meaningful assignments along with spreading awareness regarding NEP which will contribute towards the intellectual wealth of the nation.
- The webinar was facilitated by Echo India, a non-profit organization who serves as 'Operating System' for healthcare in India and fully integrated into the public health system.

Why this course?

Over the years the role of nurse has evolved significantly. Nurses work in a variety of settings, such as hospital, community, schools, special institutes, classroom etc. Though each role carries different responsibilities, the primary goal remains the same: to be the client's advocate and provide optimal care based on evidence obtained through research. Nursing Research involves identifying research problems related to clinical Nursing and implementing its findings in nursing practices, in order to improve the quality of patient care. The goal of nursing research is to provide the highest quality and most cost-effective nursing care possible. In order to practice evidence-based nursing, practitioners must understand the concept of research and know how to accurately evaluate this research.

CNRS NORTH ZONE ORGANIZED

ALL INDIA OUTSTANDING RESEARCH AWARDS FOR NURSING STUDENTS

CNRS North Zone has organized All India Outstanding Research Award for Nursing students in 3 categories: PG Thesis, PhD Dissertation, UG Research projects. 133 projects were received from BSc, 185 thesis from MSc and 42 from PhD which was quite large in number. We appreciate the organizers and evaluators who did first screening to select the best 10 in each category for final presentations. The selection of jury members was really commendable as they all have an outstanding background and experience in Nursing research. It was witnessed that there was an equal representation of participants from each zone as well as jury members were also from 4 zones of the country. The judges have done a very meticulous and vigorous evaluation to select the best. CNRS paid sincere gratitude and appreciation to Dr. Latha Venkatesan and her complete team of North Zone for initiating such a nationwide movement on behalf of CNRS which will obviously bring our visibility to achieve CNRS objectives.

Introduction to Conference:
 The Nursing Conference is the platform for Nursing students, faculty, researchers and leaders to collaborate on topics in Nursing Research which provides an Evidence Based body of knowledge required to meet the challenges in providing competent patient care by a Professional Nurse. This conference provides insight to the delegates regarding the process of transformation of their research into quality publications.

About CNRS
 CNRS is a non-profit organization established in the year 2019. The aim of the organization is to encourage and improve the quality of clinical research in nursing to generate evidence and its application in clinical practice and education at par with Global Nursing Standards. CNRS envisions in creating a global platform of nurse researcher for excellence in nursing research and capacity building for its execution and sustenance. Presently CNRS has established its 3 zones, North Zone, West Zone and South Zone.

CNRS so far conducted one National Conference at its Head Office, MOU with renowned organizations, Universities and Institutes, more than 15 webinars, International Conference in collaboration with Nursing Division of Ministry of Health and Family Welfare, e-conferences, developed Research Course series for Nursing Teachers and MSc Nursing students, organized E-research presentations, various research projects and many more.....

CNRS-south zone chapter officially launched on 17th May 2023, presently organizing its first National conference in collaboration with Sri Devaraj Urs College of Nursing, Kolar, Karnataka.

Objectives:
 By the end of the conference, the delegates will be able to:

- Understand the basic concepts of Nursing Research.
- Differentiate research article type & techniques.
- Write manuscript for publication
- List the strategies to enhance quality publications
- Select journals for publication.

Target Group:
 Nursing Faculty, Staff Nurses, UG & PG Nursing Students and Research Scholars

We believe in Right Collaboration!

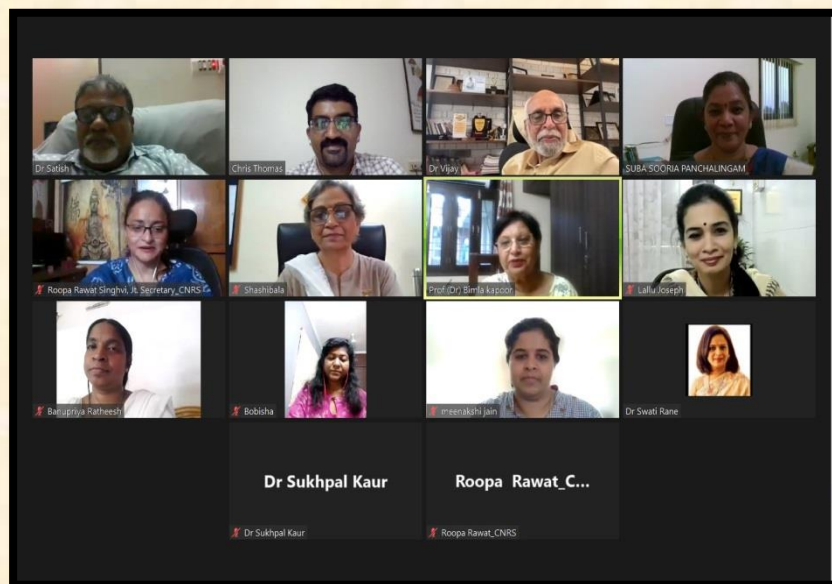

Memorandum of Understanding (MOU) has signed between Clinical Nursing Research Society (CNRS) And Consortium of Accredited Health care Organization (CAHO) On Nursing Research collaboration.

The graphic features the logos of CNRS and CAHO at the top. In the center, a circular seal reads 'MEMORANDUM OF UNDERSTANDING MoU' with '2020-2023' and '5 YEARS' around it. Below the seal, the text reads 'MOU SIGNS BETWEEN Clinical Nursing Research Society (CNRS) & Consortium of Accredited Health care Organization (CAHO)'. At the bottom, it states: 'To establish a collaborative relationship through mutual interest in improving standard of health care and better patient outcome through research in the field of Health care system'.

Collaboration looking for...

- Ethical committee with larger umbrella
- Funded projects
- Interdisciplinary projects
- EBP projects
- Publications in Q1,Q2,Q3 and rewards for especially bed side nurses and student nurses
- Focus on Inculcating the same in the Nurses **FOR THE FUTURE** - long term goal

A video conference grid is visible on the right side of the slide, showing participants like Roopa Rawat, Chris Thomas, and others.
